

OFFICIAL HOOKED RULES

DESCRIPTION

This fishing lawn game is **COMPETITIVE, FUN**, and **EXCITING** to play! Great for tailgating, picnics, camping, at the beach, the park, or just hanging in your backyard. Easy to assemble and ideal to take anywhere. A great way to improve and maintain your casting accuracy as well as teaching friends and family to be future anglers.

PLAY OF THE GAME (Tournament)

Each player (Angler) alternates their casting of the bait one at a time until one lucky angler wins the tournament. The first to get HOOKED, reaches or exceeds 21 points wins!

SCORING

Legal Catch	Bait that hits and bounces off the Pond (game board) or touching the Pond, but not on the Pond.	(1) point
Top Water Catch	Bait that comes to rest anywhere on the Pond	(3) points
Jigging Catch	Any bait that lands on the Pond and can be Jigged to one of the two holes. Note: If you pull your bait off the board while attempting a jigging catch, you will forfeit your 3 points and be forced to count it as 1-point legal catch.	(5) points
Hooked	Bait that comes to rest in any of the two holes on the Pond, is considered the perfect cast. You can count it as 10 points or an Automatic Win	(10) points or Automatic Win

Hints

Reeling your line in tight after each cast will help keep your casting more accurate and problem free. We had all intentions to design this game to be snag free, but like the world of real / reel fishing, you will get that occasional snag.

FISH CLEANING

Handwash fish with a mild dish soap and water, rinse and let air dry.
